Ved iverksettingen av prosjektet NettLær høsten 1999 ble det foretatt en gjennomgang og innsamling av relevante publikasjoner tilknyttet forskning på IKT basert læring og undervisning. Litteratursamlingen består overveiende av artikler fra internasjonale tidsskrifter. Selve artikkelkopiene er samlet i 3 permer som befinner seg i prosjektadministrasjonens lokaler på HiS. Artikkelen er også systematisert i dataprogrammet EndNote 3 (datafil: artikler) slik at man lett skal kunne finne fram til faktaopplysninger om de ulike artiklene i samlingen. Vedlagt finnes en utskrift i form av en referanseliste fra EndNote.
